MR J. HERBERT TRITTON, the President of th Institute of Bankers, in his recent inaugural address at the opening of the eighth session of the Institute, said the silver question had, from being a comparatively unimportant under-current, assumed proportions which now overshadowed all other economic questions, and the Bland Act was no doubt one of the chief disturbing influences in the year, Bro. The Commission reported in favour of restoring the law to its position previous to the alteration. This recommendation was adopted by the House of Representatives. When the measure came before the Senate it met with unexpected opposition, chiefly from Mr. Sherman, a former Secretary of the Treasury.
